INTRODUCTION

Plaintiff Andrew Okusko (“Plaintiff”), who has brought the present action as a class action pursuant to Fed. R. Civ. P. 23 on behalf of himself and the other public investors in the Tezos initial coin offering (the “Tezos ICO”) that took place July 1, 2017 through July 14, 2017 (the “Proposed Class”), respectfully submits this memorandum of points and authorities in support of his motion requesting that the Court issue an order permitting expedited discovery and a lift of the automatic discovery stay under the Private Securities Litigation Reform Act (“PSLRA”), 15 U.S.C. § 77z-1(b)(1). Plaintiff seeks limited, particularized, discovery (the “Motion for Expedited Discovery”) from Defendant Dynamic Ledger Solutions, Inc. (“DLS”) and Defendant Tezos Foundation (the “Foundation”) to (1) further investigate and develop a record of facts pertinent to the Foundation’s jurisdictional defenses, and (2) further investigate and develop a record of facts concerning the safekeeping and status of the Bitcoin (“BTC”) and Ether (“ETH”) raised in connection with the Tezos ICO (the “ICO Proceeds”), so as to determine whether the Proposed Class’ investments are secure and if there is a necessity for Plaintiff to move for injunctive relief.

PROCEDURAL BACKGROUND AND STATEMENT OF FACTS

On November 28, 2017, Plaintiff initiated this action by filing a complaint alleging violations of the federal securities laws stemming from Defendants' offer and sale of unregistered securities in connection with the Tezos ICO (the "Complaint"), ECF No. 1. On December 4, 2017, Plaintiff filed his Motion for Preliminary Injunction (the "PI Motion"), ECF No. 9. The PI Motion sought an order preliminarily enjoining Defendants DLS, the Foundation, Kathleen Breitman ("K. Breitman"), Arthur Breitman ("A. Breitman," and together with K. Breitman, the "Breitmans," and collectively with DLS, the Tezos Foundation, and K. Breitman, "Defendants"),¹ from transferring or dissipating assets, the ICO Proceeds, and any other assets that Defendants have since purchased with the ICO Proceeds. The hearing on the PI Motion was scheduled to take place on January 11, 2018 (the "PI Hearing").

On December 13, 2017, a complaint based on the same facts and circumstances as the instant action was filed, initiating *Macdonald v. Dynamic Ledger Solutions, Inc., et al*, 3:17-cv-7095-RS (N.D.

¹ Plaintiff's Complaint also names Timothy Draper ("Draper") as a defendant, ECF No. 1, however, Plaintiff did not seek injunctive relief against Draper in his PI Motion, ECF No. 9.

1 Cal.) (the “MacDonald Action”). The following day, an Ex Parte Application for Temporary
 2 Restraining Order (the “TRO Application”), MacDonald Action, ECF No. 8, was filed requesting
 3 substantially similar relief as Plaintiff’s PI Motion. The Court thereafter scheduled and held a hearing
 4 on the TRO Application on December 19, 2017 (the “TRO Hearing”).

5 Following the TRO Hearing, this Court denied the TRO Application. In the Order Denying
 6 Application for Temporary Restraining Order, MacDonald Action, ECF No. 35, this Court held that
 7 while “[t]he lack of updates regarding the project, infighting amongst Tezos leadership, the firing of an
 8 auditor, and the delayed launch of the project are all worrisome,” such facts were insufficient to provide
 9 “strong evidence of looting.” *Id.* at pg. 6. Additionally, this Court held that Plaintiff MacDonald’s
 10 concerns regarding dissipation rose “to little more than speculation” and were “not sufficient to support
 11 a finding of irreparable harm and therefore do not justify the ‘extraordinary remedy’ of injunctive
 12 relief.” *Id.* at pgs. 6-7.

13 Due to (1) the agreement Plaintiff was able to reach with Defendants regarding waivers of
 14 service,² (2) this Court’s reasoning for denying the TRO Application, and (3) the fact that the TRO
 15 Application contained substantially similar arguments as Plaintiff’s PI Motion and was based on the
 16 same general public record, Plaintiff determined that it was in the best interests of all parties involved
 17 to forego the PI Hearing and withdraw his PI Motion without prejudice in favor of developing a more
 18 complete evidentiary record. Accordingly, following the TRO Hearing, Plaintiff’s counsel conferred
 19 with counsel for the Foundation and counsel for DLS regarding potential limited expedited discovery.
 20 In addition to the numerous telephone conferences on this matter Plaintiff’s counsel conducted with
 21 DLS’ and the Foundation’s counsel, counsel for Plaintiff also provided Defendants’ counsel with a
 22 formal letter setting forth a proposed scope of production on January 22, 2018 (the “Proposed
 23 Production Letter”), attached as Exhibit 1 to the Declaration of Donald J. Enright in Support of
 24 Plaintiff’s Motion for Expedited Discovery (“Enright Dec.”) filed concurrently herewith. On
 25 January 24, 2018, counsel for the Foundation responded (the “Response Letter”), Enright Dec., Ex. 2,
 26 and reaffirmed Defendants opposition to Plaintiff’s requested limited discovery. Ultimately, the parties

27
 28 ² The substance of the agreement reached between Plaintiff and Defendants is contained in Plaintiff’s
 Notice of Withdrawal of Motion for Preliminary Injunction, ECF No. 23.

1 were unable to reach an agreement on the issues addressed by the instant Motion.

2 Due to the foregoing sequence of events, Plaintiff's desire to ensure expediency in the progress
 3 of this litigation by factually exploring the Foundation's jurisdictional defenses, and aim of establishing
 4 a more complete record, Plaintiff submits this Motion for Expedited Discovery

5 **ARGUMENT**

6 **I. EXPEDITED DISCOVERY IS NECESSARY AND APPROPRIATE IN THESE
 7 CIRCUMSTANCES**

8 **A. Courts Allow Expedited Discovery for Good Cause**

9 Discovery under the Federal Rules of Civil Procedure does not commence until after the parties
 10 have met and conferred pursuant to Rule 26(f). *See* Fed. R. Civ. P. 26(d). Nevertheless, a court may,
 11 in the exercise of its broad discretion, alter the timing, sequence, and volume of discovery. *See, e.g.,*
 12 Fed. R. Civ. P. 26(b)(2), 26(d). "In fashioning discovery orders under Rule 26(d), the district courts
 13 wield broad discretion, as they do when managing any aspect of discovery." *UMG Recordings, Inc. v.*
 14 *Doe*, 2008 U.S. Dist. LEXIS 79087, *9 (N.D. Cal. Sept. 3, 2008).

15 "[D]istrict courts may grant requests for expedited discovery on a showing of 'good cause.'" *Arista Music v. Radionomy, Inc.*, 2016 U.S. Dist. LEXIS 74883, at *7 (N.D. Cal. June 8, 2016) (citing
 16 *Semitool, Inc. v. Tokyo Electron Am., Inc.*, 208 F.R.D. 273, 276 (N.D. Cal. 2002)). In this District,
 17 courts consider the following factors in determining whether good cause has been shown: "(1) whether
 18 a preliminary injunction is pending; (2) the breadth of the discovery request; (3) the purpose for
 19 requesting the expedited discovery; (4) the burden on the defendants to comply with the requests; and
 20 (5) how far in advance of the typical discovery process the request was made." *Lilith Games (Shanghai)*
 21 *Co. v. uCool, Inc.*, 2015 U.S. Dist. LEXIS 72641, at *7 (N.D. Cal. June 4, 2015). "Good cause may be
 22 found where the need for expedited discovery, in consideration of the administration of justice,
 23 outweighs the prejudice of the responding party." *Strike 3 Holdings, LLC v. Doe*, 2018 U.S. Dist.
 24 LEXIS 6080, at *2 (N.D. Cal. Jan. 11, 2018) (quotation omitted); *see also Kremen v. Cohen*, 2011 U.S.
 25 Dist. LEXIS 141273, at *27 (N.D. Cal. Dec. 7, 2011) ("A court may grant a motion for expedited
 26 discovery upon a showing of good cause, [and] balancing the benefit to the requesting party against the
 27 possible prejudice or hardship on the responding party."). In connection with the court's determination
 28

as to whether “good cause” exists, “[t]he court must perform this evaluation in light of ‘the entirety of the record . . . and [examine] the reasonableness of the request in light of all surrounding the circumstances.’” *Huntington Ingalls, Inc. v. Doe*, 2012 U.S. Dist. LEXIS 166710, at *5 (N.D. Cal. Nov. 21, 2012) (quoting *Semitool, Inc.*, 208 F.R.D. at 276).

Here, expedited discovery is warranted as Plaintiff requires such to (1) further investigate and develop a record of facts pertinent to the Foundation’s jurisdictional defenses, and (2) further investigate and develop a record of facts concerning the safekeeping and status of the ICO Proceeds, so as to whether there is a necessity for Plaintiff to seek injunctive relief. Additionally, as detailed *infra*, the specific discovery requested is objectively reasonable considering the facts and circumstances at hand. As such, the Court should permit Plaintiff to take limited expedited discovery from DLS and the Foundation.

B. Good Cause Exists for a Grant of Expedited Discovery

1. Good Causes Exists to Investigate Defendant Foundation's Jurisdictional Defenses

Based on Plaintiff's counsel's discussions with counsel for Defendants, the Foundation's responsive filings in the MacDonald Action, and the TRO Hearing, the Foundation has indicated that it intends to raise a jurisdictional defense and claim that this Court lacks personal jurisdiction over it. Despite the Foundation's contention on this issue, Plaintiff believes that there is sufficient evidence to establish that this Court does have personal jurisdiction over the Foundation.

First, there is clear evidence that the Tezos ICO primarily targeted U.S. investors. Specifically, K. Breitman, the “co-founder and CEO of @tezos,” specifically stated as such in an interview: “**We didn’t do much marketing outside of the U.S.**” (emphasis added). Flux Podcast, *Kathleen Breitman – Tezos Unleashed*, RRE Ventures Perspectives (July 12, 2017), Enright Dec., Ex. 3. Due to Defendants offering and selling of unregistered securities in violation of the federal securities laws during the Tezos ICO, and the fact that their primary intention was to market the Tezos ICO to, and solicit investments from, U.S. persons, the operators of the Tezos ICO, including the Foundation, subjected themselves to personal jurisdiction in the United States and this District. *See, e.g., Sharma v. Freedom Inv. Club, Ltd.*, 2010 U.S. Dist. LEXIS 113349, at *3 (N.D. Cal. Oct. 15, 2010) (“[F]oreign

1 defendants are subject to personal jurisdiction in any federal court, so long as there are minimum
 2 contacts with the United States.”) (citing *Bourassa v. Desrochers*, 938 F.2d 1056, 1058 (9th Cir. 1991)).

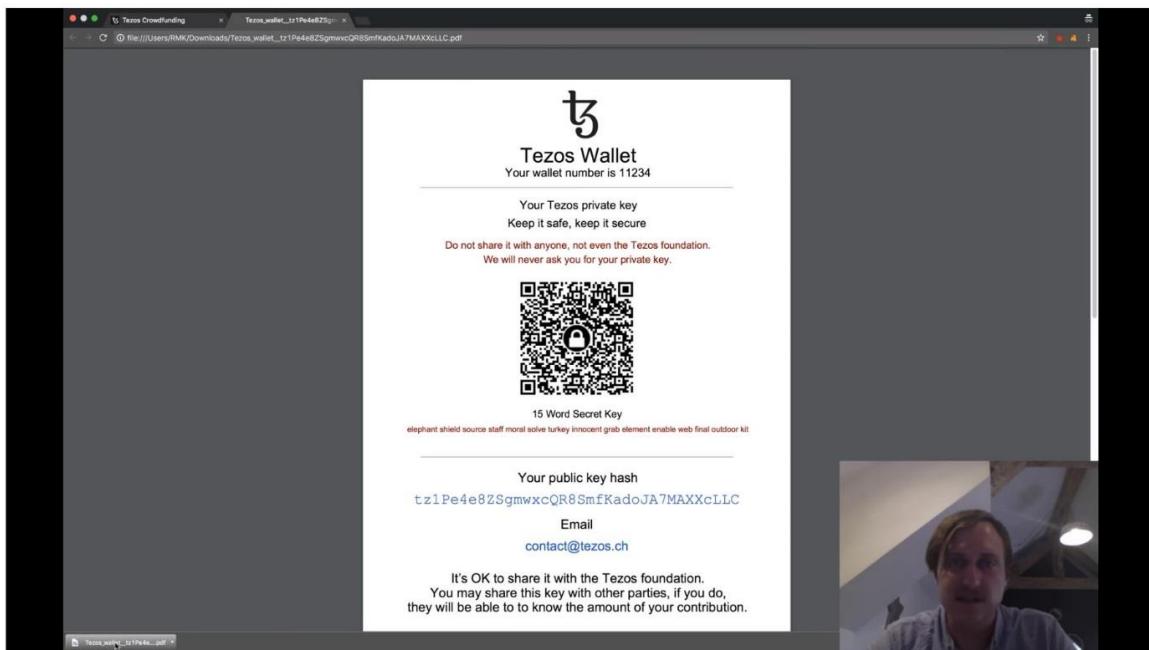

3 Second, it appears clear that DLS and the Breitmans ran the Tezos ICO from within this District.
 4 As explicitly stated by the President of the Tezos Foundation when discussing the Breitmans and DLS,
 5 both located in this District, “[t]hey control the foundation’s domains, websites and email servers, so
 6 the foundation has no control or confidentiality in its own communications.” Anna Irrera, *et al.*, *Special*
 7 *Report: Backroom battle imperils \$230 million cryptocurrency venture*, Thomson Reuters (Oct. 18,
 8 2017), Enright Dec., Ex. 4. Accordingly, Plaintiff believes that this Court has personal jurisdiction
 9 over the Foundation because, on behalf of the Foundation, including by use of the Foundation’s
 10 “websites,” DLS and the Breitmans marketed and conducted the Tezos ICO from within this District.

11 Third, the Foundation was actively involved in the offer and sale of the Tezos Tokens during
 12 the Tezos ICO. For example, the Foundation’s website, www.tezos.ch, contained a “Fundraiser FAQ”
 13 which included a nine-point step-by-step guide detailing how investors could purchase Tezos Tokens
 14 during the Tezos ICO. *See* Tezos Foundation, *Fundraiser FAQ*, Enright Dec., Ex. 5. Moreover, this
 15 FAQ page also had two embedded YouTube instructional video guides detailing different methods on
 16 how to invest in the Tezos ICO.³ *Id.* The host of the first of these videos began the video by stating:
 17 “Hello, this is Ross Kenyon. I am the Community Manager with the Tezos Foundation.” *Id.* Not only
 18 did an employee of the Foundation make instructional videos on how to invest in the Tezos ICO, but
 19 the Foundation thereafter hosted embedded copies of such videos on its website. *Id.* Accordingly, the
 20 Foundation clearly had substantial participation in marketing and conducting the Tezos ICO.
 21 Moreover, Defendants have repeatedly stressed that the Foundation ran the Tezos ICO. *See, e.g., Tezos*
 22 *and Tezos Foundation Overview Document*, Enright Dec., Ex. 6 at pg. 8 (“The Switzerland-based Tezos
 23 Foundation will oversee a fundraiser on July 1, 2017”). The foregoing actions and statements plainly
 24 evidence the fact that the Foundation actively solicited investors and participated in the offer of Tezos
 25 Tokens in the United States during the Tezos ICO, thus subjecting it to personal jurisdiction in this
 26 District. *See, e.g., SEC v. Jeffrey Alan Lowrance & First Capital S&L, Ltd.*, 2012 U.S. Dist. LEXIS

27
 28 ³ The instructional videos are available at, <https://www.tezos.ch/pages/fundraiser-faq.html#fundraiser-faq>.

1 93129, at *5 (N.D. Cal. July 5, 2012) (“Plaintiff alleges that Defendants solicited approximately
 2 \$21 million from hundreds of investors, including investors in California. The means of solicitation
 3 included the First Capital website, cold calls, and mass mailings. The solicitations constitute purposeful
 4 direction, and the litigation arose out of that conduct. Accordingly, the court may exercise personal
 5 jurisdiction over the Defendants in this case.”).

6 Fourth, in return for investments during the Tezos ICO, Plaintiff and the Proposed Class
 7 received “Tezos Wallets.” The Tezos Wallets were meant to evidence how many Tezos Tokens each
 8 investor was to receive if, or when, the Tezos blockchain was created. The first instructional video on
 9 the Foundation’s website included an example of what a Tezos Wallet looks like:⁴

21 Tezos Fundraiser Video Walkthrough

22 This demonstrates that investors in the Tezos ICO purchased and received Tezos Wallets
 23 directly from the Foundation. Specifically, the support email in the Tezos Wallet is
 24 “contact@tezos.ch,” which is an email hosted on the Foundation’s website. Additionally, the Tezos
 25 Wallet stated, with respect to the public key hash for the Tezos Wallet: “It’s OK to share it with the
 26 Tezos foundation.” The promise of Tezos Tokens that Plaintiff and the Proposed Class received in
 27

28 ⁴ Fundraiser FAQ, Enright Dec., Ex. 5; *supra* note 3.

1 exchange for their investments during the Tezos ICO clearly exhibits that not only was the Foundation
 2 involved in the offer of Tezos Tokens, but also effectuated the delivery of the Tezos Wallets to
 3 investors. By engaging in the sale of Tezos Tokens—which Plaintiff maintains were unregistered
 4 securities—in the United States in general and California in particular, the Foundation has purposefully
 5 availed itself to personal jurisdiction in this District. *See* 15 U.S.C. § 77v(a) (“The district courts of the
 6 United States and the United States courts of any Territory shall have jurisdiction of offenses and
 7 violations under [the Securities Act of 1933]”).

8 Based on the foregoing, Plaintiff believes that this Court has personal jurisdiction over the
 9 Foundation. However, due to the Foundation’s insistence that there is a dispute relating to jurisdiction
 10 and indication that it will raise jurisdictional defenses, Plaintiff is requesting limited expedited
 11 discovery to investigate this issue further, so as to fully address concerns regarding jurisdiction this
 12 Court raised during the TRO Hearing and to timely resolve any jurisdictional disputes in pursuit of
 13 judicial efficiency. This District routinely grants such requests, for example, as this Court stated in
 14 *Music*,

15 District courts may permit limited discovery to determine whether personal
 16 jurisdiction exists. *Mehr v. Fed'n Internationale de Football Ass'n*, 115 F. Supp.
 17 3d 1035, 1053 (N.D. Cal. 2015). When the parties dispute pertinent facts bearing
 18 on the question of jurisdiction or where ‘a more satisfactory showing of the facts is
 19 necessary,’ district courts should ordinarily grant requests for limited discovery.
Laub v. United States DOI, 342 F.3d 1080, 1093 (9th Cir. 2003). While district
 20 court discretion in this area is broad, district courts abuse their discretion by
 21 denying discovery “[w]here further discovery on an issue ‘might well’ demonstrate
 22 facts sufficient to constitute a basis for jurisdiction” *Mehr*, 115 F. Supp. 3d at 1054
 23 (quoting *Harris Rutsky & Co. Ins. Servs. v. Bell & Clements Ltd.* 328 F.3d 1122,
 24 1135 (9th Cir. 2003)).

25 2016 U.S. Dist. LEXIS 74883, at *6-7.

26 In sum, because the Foundation has maintained its intention to dispute this Court’s jurisdiction
 27 over it, Plaintiff respectfully requests expedited discovery narrowly tailored to decisively and timely
 28 resolve the issue.

29 **2. Good Cause Exists to Investigate Whether There is a Need to Seek
 30 Injunctive Relief**

31 This District has found good cause to exist where limited expedited discovery is sought to

1 determine whether to seek injunctive relief. *See Interserve, Inc. v. Fusion Garage PTE, Ltd.*, 2010 U.S.
 2 Dist. LEXIS 6395, at *7 (N.D. Cal. Jan. 7, 2010) (“[t]he court finds good cause. Expedited discovery
 3 will allow plaintiff to determine whether to seek an early injunction.”); *see also Apple Inc. v. Samsung*
 4 *Elecs. Co.*, 2011 U.S. Dist. LEXIS 53233, at *8 (N.D. Cal. May 18, 2011) (“[E]xpedited discovery
 5 would allow the Court to address any request for preliminary injunctive relief at the outset of the case,
 6 thereby providing a measure of clarity to the parties early in the proceeding and facilitating effective
 7 case management,” which “weighs in favor of” the requested expedited discovery.”) (citing *Semitool*,
 8 208 F.R.D. at 276-77).

9 In addition to the “[l]ack of updates regarding the project, the infighting amongst Tezos
 10 leadership, the firing of an auditor, and the delayed launch of the project” that this Court found
 11 concerning,⁵ recent developments have only served to further compound concerns relating to Plaintiff’s
 12 and the Proposed Class’ investments. For example, the infighting amongst Tezos’ leadership continues.
 13 *See, e.g.*, Matthew Allen, *Gevers plans to reboot embattled Tezos Foundation*, Swissinfo (Jan. 19,
 14 2018), Enright Dec., Ex. 7 (an article reporting that Johann Gevers (“Gevers”), the president of the
 15 Foundation, delivered “a thinly-veiled attack on the Breitmans’ leadership” at the Crypto Finance
 16 Conference in St. Moritz that took place January 17-19, 2018).

17 Additionally, the Foundation is currently in the process of recruiting a new board member to
 18 fill one of the three available seats following the resignation of Guido Schmitz-Krummacher in
 19 December 2017. Enright Dec., Ex 7. On December 12, 2017, Reuters reported that, “[u]nder the
 20 foundation’s bylaws, Gevers gets to nominate Schmitz-Krummacher’s replacement,” and “[i]f the third
 21 board member votes against the candidate, Gevers can cast an overriding vote.” Steve Stecklow, *et al.*,
 22 *Tezos director resigns, sowing more uncertainty at crypto startup*, Reuters (Dec. 12, 2017), Enright
 23 Dec., Ex 8. Evidently, Gevers has the authority to singlehandedly replace the third member of the
 24 Foundation’s board. Moreover, as reported by Bitcoin.com on January 22, 2017, Gevers “unilaterally
 25 vetoed all of” the board applicants that Diego Pons (“Pons”), the other remaining member of the
 26 Foundation’s board, submitted. *See Kai Sedgwick, Senior Figures Clash as the Tezos ICO War Heats*

27
 28 ⁵ MacDonald Action, TRO Order, ECF No. 35 at pg. 6.

1 *Up*, Bitcoin.com (Jan. 22, 2018), Enright Dec., Ex. 9. The article included an email that applicants
 2 received from Pons, which stated:

3 **[Tezos]Your Candidacy has been vetoed**

4 *All, You were all nominated by me as candidates to the board of the Tezos
 Foundation for the contributions I believe you could have brought to this project.*

5 *I profoundly regret to inform you that Johann Gevers has vetoed all your
 6 candidacies because you are not Swiss residents, are not “compatible with the
 Swiss mentality”, “are all already linked to the Breitmans” and because your skills
 7 are not required in the Tezos board. The board has decided per a vote (1 vs 1) that
 only one new board member will be appointed, which for technical reasons restricts
 8 the candidates to only Swiss residents. Thereafter, you will not be interviewed by
 the board.*

9 *Our PR firm will release an official statement explaining the situation in the
 10 upcoming weeks. With my deepest apologies for the trouble I have caused you.
 Diego*

11 *Id.*

12 The foregoing events and the control Gevers wields over the Foundation and Plaintiff's and the
 13 Proposed Class' investments is particularly concerning given the fact that Gevers has a well-
 14 documented history of financial mismanagement. Specifically, on January 15, 2018, a Google
 15 document was created by investors and interested persons following developments surrounding Tezos.
 16 *See Johann Gevers – Background and History (English)*, (hereinafter, the “Gevers Report”) Enright
 17 Dec., Ex 10. This document delves “into the professional life of Mr. Johann Lothar Gevers in order to
 18 shed some light on how the Tezos Foundation has ended up in such an awful state with him at the
 19 helm.” *Id.* at pg. 1. The document is extraordinarily well researched and paints a very clear picture
 20 that Gevers should not be trusted with control over and management of the ICO Proceeds. For example,
 21 the Gevers Report states:

22 As [Gevers] claims extensive achievements in both academic and professional
 23 experience spanning accounting, investing, consulting, auditing and serial
 entrepreneurship, one might expect the organizations that Mr. Gevers helms as
 24 President to be successful, but his history suggests something entirely different.

25 *Id.*

26 Indeed, the Gevers Report concludes that research into Gevers' past ventures reveals that “the
 27 majority of these companies end up in dissolution, bankruptcy or seem to disappear without a trace.”

28 *Id.* The Gevers Report thereafter relays information regarding at least five ventures Gevers ran that

1 had gone bankrupt or were dissolved, a series of ventures that appear to have not even existed, and
 2 Gevers' personal bankruptcy in 2010. *Id.* at pgs. 2-11. With respect to Gevers' professional history,
 3 the Gevers Report provides a graphical representation of such and concludes that "[t]he number of
 4 failures that Mr. Gevers has launched is both impressive and shocking for someone allegedly qualified
 5 in matters of accounting, law and business." *Id.* at pg. 11-12. The Gevers Report additionally includes
 6 results into an investigation into Gevers' personal and professional relationships that "reveals some
 7 possibly disturbing ethical conflicts of interest." *Id.* at 13-16.

8 The most recent of Gevers' professional failures occurred in December 2017, when Monetas, a
 9 company that Gevers founded and was the CEO of, was "declared bankrupt [] by a court in Zug,
 10 [Switzerland]." Swissinfo.ch and agencies, *Embattled start-up Monetas declared bankrupt*, Swissinfo
 11 (Dec. 12, 2017) (hereinafter "Swissinfo Monetas Article"), Enright Dec., Ex. 11. Despite the fact that
 12 Monetas was less than two weeks away from being declared bankrupt, on November 30, 2017, Gevers
 13 sent a letter to Monetas' investors stating that the company had obtained its "first commercial customer"
 14 and entered into a contract that "runs until mid-2018." *See Johann Gevers, Investor Update – November*
 15 *2017, Monetas* (Nov. 30, 2017), Enright Dec., Ex. 12. Gevers further stated that "it's fantastic to finally
 16 be earning our first commercial revenues after years of building the Monetas platform." *Id.* As stated
 17 by Swissinfo, "[i]n this letter to investors on November 30, Gevers insisted things were improving for
 18 Monetas, but the company went bust weeks later." Swissinfo Monetas Article, Enright Dec., Ex. 10.

 27 ///
 28 ///

1 Gevers has similarly made numerous declarations that progress is being made on the Tezos
 2 project, and investors need only be patient. For example, on January 19, 2017, Gevers tweeted the
 3 following:

4 **Johann Gevers**
 5 @johanngevers

[Follow](#)

6 Now that we have regained the ability to act,
 7 the Tezos Foundation is building a world-class
 8 team to execute its mission. We are recruiting
 9 proven achievers in three categories: 1. board
 10 2. advisors 3. executive team.
 11 Complemented by top-tier professional
 12 service providers.

13 4:54 AM - 19 Jan 2018

14 Recent events surrounding Monetas, as well as research revealing Gevers' history of financial
 15 mismanagement, raise serious questions as to Gevers' credibility and competency to lead the
 16 Foundation and manage/safeguard the ICO Proceeds. As such, Gevers' assurances carry little weight.
 17 Such assurances have failed to assuage Plaintiff's and the Proposed Class' concerns regarding the status
 18 of their investments. Gevers' lack of transparency regarding the dire straits Monetas was in, statements
 19 that Monetas' future was actually looking bright a mere two weeks prior to the company being declared
 20 bankrupt, apparent mismanagement of Monetas, as well as numerous other ventures, that led to their
 21 respective bankruptcies or dissolutions, all raise serious concerns as to: the truthfulness of Gevers'
 22 public statements regarding the status of the Tezos project and the safety of the ICO Proceeds; his
 23 ability to single-handedly appoint the Foundation's third board member; and his competency to
 24 responsibly manage and safeguard Plaintiff's and the Proposed Class' investments pending resolution
 25 of this litigation.

1 Accordingly, Plaintiff requests limited expedited discovery to further investigate the status of
 2 the ICO Proceeds, including as it relates to how the ICO Proceeds have been spent to date, the
 3 safeguards in place, and the identities of persons who have, or had, access to or control over the ICO
 4 Proceeds.

5 Moreover, during the TRO Hearing, Defendants conceded that a large portion of the proceeds
 6 from the Tezos ICO have already been converted to fiat currency, thereby making proper rescission
 7 very difficult, if not impossible. MacDonald Action, ECF No. 45. As such, it is reasonable to infer
 8 that further conversions and dissipation of the ICO Proceeds may be inevitable unless injunctive relief
 9 is obtained.

10 In sum, Plaintiff seeks to use the foregoing discovery to investigate the numerous objectively
 11 valid concerns surrounding the status of the ICO Proceeds, further develop the evidentiary record, and
 12 determine whether there is a need to pursue injunction relief. Indeed, courts in this District have
 13 permitted such requests following the denial of an application for TRO to enable parties to determine
 14 whether preliminary injunctive relief is in fact necessary. For example, in *Gsi Tech., Inc. v. United*
 15 *Memories, Inc.*, after the court denied a requested TRO because the court was “not convinced [that]
 16 ‘immediate and irreparable injury’” would occur absent a grant of the TRO, the court found “good
 17 cause” for expedited discovery as “[t]argeted discovery will allow the court to determine whether a
 18 preliminary injunction is in fact warranted.” 2013 U.S. Dist. LEXIS 50493, at *4 (N.D. Cal. Apr. 8,
 19 2013). The court further held that such, “[l]imited, narrowly tailored discovery on an expedited
 20 schedule [would] not unfairly prejudice” the defendant. *Id.*; *see also Coen Co. v. Pan Int'l, Ltd.*,
 21 2014 U.S. Dist. LEXIS 110027, at *16 (N.D. Cal. Aug. 8, 2014) (denying a TRO application, granting
 22 a request for expedited discovery, and finding “good cause” where defendants’ “complicated
 23 organizational nature . . . appear[ed] to be obstructing Plaintiff’s efforts to forestall an imminent harm”).
 24 Accordingly, “good cause” exists and this Court should permit Plaintiff to take limited expedited
 25 discovery from DLS and the Foundation.

26 **C. The Requested Expedited Discovery is Reasonable Considering the**
 27 **Circumstances and Will Provide Minimal Burden on Defendants**

28 As noted *supra*, Plaintiff provided the Proposed Production Letter, Enright Dec., Ex. 1, to

1 counsel for Defendants on January 22, 2018. The Proposed Production Letter included 9 categories of
2 production and requested depositions from one DLS representative and one Foundation Board Member.
3 All of Plaintiff's requests are directly relevant to (1) further investigating and developing a record of
4 facts pertinent to the Foundation's jurisdictional defenses, and (2) further investigating and developing
5 a record of facts concerning the safekeeping and status of the ICO Proceeds, so as to determine whether
6 there is necessity for Plaintiff seek injunctive relief. The 9 categories of information and the depositions
7 requested is as follows:

- 8 1. All communications and records, including without limitation, minutes of DLS's and the
9 Foundation's Board of Directors, and documents from and including June 1, 2017 to and
10 including February 22, 2018, the proposed production completion date (the "Relevant Time
11 Period") concerning the formation of DLS and the Foundation.
- 12 2. All communications, records and documents from the Relevant Time Period concerning
13 DLS's capital and governance structure.
- 14 3. All communications, records and documents from the Relevant Time Period concerning the
15 operation and management of the Foundation's website, tezos.ch, including the identities of
16 persons who were responsible for the posting and curating of content on the Foundation's
17 website relating to the Tezos ICO.
- 18 4. All communications, records and documents from the Relevant Time Period concerning the
19 Foundation's employees and affiliates responsible for conducting the Tezos ICO, including
20 as relates to the organizational and reporting structure for employees such as Ross Kenyon,
21 the "Community Manager for the Tezos Foundation."
- 22 5. All communications, records and documents from the Relevant Time Period concerning the
23 Foundation's governance structure, including as relates to the process and procedures for
24 the nomination and appointment of the Foundation's board members.
- 25 6. All communications, records and documents from the Relevant Time Period concerning the
26 current status of the ICO Proceeds, security measures taken to safeguard the ICO Proceeds,
27 and the decision-making process that led to such security measures, including as relates to
28 the decision to grant Bitcoin Suisse AG co-signatory authority on transactions involving the

1 ICO Proceeds.

2 7. All communications, records and documents from the Relevant Time Period concerning the
3 liquidation, dissipation, transfer, or use of any of the ICO Proceeds, including such actions
4 taken by DLS' and the Foundation's employees, board members, or owners, as well as the
5 Breitmans, including their family members, friends, or affiliates.

6 8. All public digital currency wallet addresses – that were or are under the control of DLS or
7 the Foundation, including any of their employees, board members, or owners, as well as
8 addresses for such wallets that are or have been under the control of the Breitmans, including
9 any of their family members, friends, or affiliates – that have held at any point during the
10 Relevant Time Period any portion of the ICO Proceeds, or proceeds from, the sale,
11 liquidation, dissipation, or transfer of the ICO Proceeds.

12 9. All communications, records and documents concerning DLS' and the Foundation's
13 activities, presence, assets or residence in the State of California.

14 10. Depositions of at least one DLS representative and one Foundation Board Member
15 knowledgeable on the topics addressed in paragraphs 1 through 9. The requested
16 depositions shall solely relate to the topics addressed in paragraphs 1 through 9.

17 As detailed in the Proposed Production Letter, Enright Dec., Ex. 1, the items requested in
18 Paragraphs 1 through 5 are narrowly tailored to provide Plaintiff with sufficient information to
19 conclusively resolve disputes regarding the Foundation's jurisdictional defenses. Similarly, the items
20 requested in paragraphs 6 through 9 are narrowly tailored to provide Plaintiff with sufficient
21 information to further investigate the various concerns surrounding the status and safekeeping of the
22 ICO Proceeds, as well as to determine whether seeking injunctive relief is in fact necessary to prevent
23 irreparable harm to Plaintiff and the Proposed Class at this point juncture.

24 The requested limited discovery is reasonable under the circumstances at hand. Specifically,
25 such discovery is reasonable because (1) the Foundation maintains that there is a dispute relating to this
26 Court's jurisdiction over it, and (2) there are numerous concerns surrounding the status and safety of
27 the ICO Proceeds which necessitate immediate further investigation—*e.g.*, the ongoing infighting
28 amongst Tezos' leadership; repeated delays to the Tezos project; Defendants firing their auditor;

1 uncertainty regarding the precise amount of the ICO Proceeds that have been liquidated or dissipated;
 2 allegations that Gevers attempted to self-deal; and the bankruptcy of Gevers' company, Monetas, which
 3 raises serious questions as to his trustworthiness and/or competency to unilaterally establish the
 4 composition of the Foundation's board and/or manage and safeguard Plaintiff's and the Proposed Class'
 5 investments.

6 Further, the requested limited discovery will provide minimal burden on Defendants because
 7 the request: (1) is narrowly tailored to an investigation on just two specific topics; (2) seeks responsive
 8 production from two of the five Defendants—DLS and the Foundation—both of which appear to have
 9 a small number of employees involved in their governance and operation; (3) seeks production from a
 10 time period that covers just eight months; (4) primarily seeks the production of documents and records
 11 that are typically created and indexed by in any organization in the ordinary course of business, *e.g.*,
 12 bylaws, governance guidelines, and routine accountings; and (5) seeks depositions solely related to two
 13 issues and to take depositions of only one DLS representative and one Foundation Board Member.
 14 Each of the foregoing reasonably indicates that permitting Plaintiff to take the requested discovery from
 15 DLS and the Foundation will place minimal burden on the Defendants, including as it relates to the
 16 cost, time, and the difficulty in making such productions.

17 **II. THE PSLRA ALLOWS FOR DISCOVERY UNDER THESE CIRCUMSTANCES**

18 The PSLRA's automatic discovery stay provides as follows:

19 In general. In any private action arising under this title [15 USCS §§ 77a et seq.],
 20 all discovery and other proceedings shall be stayed during the pendency of any
 21 motion to dismiss, unless the court finds upon the motion of any party that
 particularized discovery is necessary to preserve evidence or to prevent undue
 prejudice to that party.

22 15 U.S.C. § 77z-1(b)(1).

23 In the Ninth Circuit "the automatic stay on all discovery under the PSLRA [applies] not only
 24 when a motion to dismiss is pending, but from the filing of the case until such time that 'the court has
 25 sustained the legal sufficiency of the complaint.'" *In re Finisar Corp. Derivative Litig.*, 2012 U.S.
 26 Dist. LEXIS 23384, at *7 (N.D. Cal. Feb. 24, 2012) (citing *In re Am. Funds Sec. Litig.*, 493 F. Supp.
 27 2d 1103, 1105 (C.D. Cal. 2007)). In actions to which the PSLRA applies, the party seeking discovery
 28

1 must show that “particularized discovery is necessary to preserve evidence or to prevent undue
 2 prejudice.” 15 U.S.C. § 77z-1(b)(1).

3 In the PSLRA discovery context, “undue prejudice” requires “a showing of improper or unfair
 4 detriment, which need not reach the level of irreparable harm.” *In re Asyst Techs., Inc.*, 2008 U.S. Dist.
 5 LEXIS 119921, at *5 (N.D. Cal. Apr. 3, 2008) (citing *Lernout & Hauspie Sec. Litig.*, 214 F. Supp. 2d
 6 100, 107 (D. Mass. 2002)); *see also Medical Imaging Centers of America, Inc. v. Lichtenstein*, 917 F.
 7 Supp. 717, 720 (S.D. Cal. 1996) (“This ‘undue prejudice’ standard is . . . something less than
 8 ‘irreparable harm.’”); *Gerbino v. Sprint Nextel Corp.*, 12-2722-CM, 2013 WL 12129957, at *3 (D. Kan.
 9 Apr. 19, 2013) (stating that “undue prejudice” has been defined as “improper or unfair treatment
 10 amounting to something less than irreparable harm”) (citing *Dipple v. Odell*, 870 F. Supp. 2d 386, 392
 11 (E.D. Pa. 2012)); *see also Hufnagle v. RINO Int'l Corp.*, 2011 U.S. Dist. LEXIS 72078, at *3 (C.D.
 12 Cal. July 6, 2011).

13 Here, such extraordinary circumstances exist and a lift of the PSLRA’s automatic discovery
 14 stay is necessary to prevent undue prejudice to Plaintiff and the Class. Plaintiff will undoubtedly be
 15 faced with undue prejudice absent a grant of the instant Motion. In MacDonald Action’s TRO Order,
 16 this Court found that the current evidentiary record and plaintiff MacDonald’s concerns were “not
 17 sufficient to support a finding of irreparable harm and therefore do not justify the ‘extraordinary
 18 remedy’ of issuing injunctive relief.” MacDonald Action, ECF No. 35 at pgs. 6-7. However, this
 19 Court also held that there were various circumstances surrounding the status and operation of the
 20 Foundation that were “all worrisome.” Accordingly, Plaintiff seeks expedited discovery narrowly
 21 tailored to investigate Plaintiff’s, the Proposed Class’, and this Court’s worries further. In denying the
 22 TRO Application this Court held that the current evidentiary record does not support a finding of
 23 “irreparable harm.” *Id.* However, Plaintiff contends that the “worrisome” factual record relating to the
 24 TRO Hearing, coupled with recent developments surrounding the Tezos project, are sufficient to satisfy
 25 the “undue prejudice” exception to the PSLRA’s automatic stay, “which need not reach the level of
 26 irreparable harm.” *Asyst Techs., Inc.*, 2008 U.S. Dist. LEXIS 119921, at *5; *see also In re Grand*
 27 *Casinos Sec. Litig.*, 988 F. Supp. 1270, 1272 (D. Minn. 1997) (explaining that Congress gave district
 28 courts discretion to grant relief from the stay); *In re Delphi Corp. Sec., Deriv. & “ERISA” Litig.*,

1 2007 WL 518626, at *3 (E.D. Mich. Feb. 15, 2007) (same).

2 As noted *supra*, the Foundation has indicated that it intends to raise jurisdictional defenses.
 3 Absent a grant of the instant Motion, a dispute on the Court's jurisdiction over the Foundation may
 4 unnecessarily delay the progress of this action, during which time uncertainty as to the status and safety
 5 of Plaintiff's and the Proposed Class' investments would only be compounded further. Permitting
 6 Plaintiff to obtain documents necessary to further investigate the Foundation's jurisdictional defenses
 7 will enable such jurisdictional disputes to be resolved expediently, and thus without further delay and
 8 the attendant potential for further irreparable harm.

9 Indeed, in the event that Defendants are engaging in ongoing dissipation, liquidation, and/or
 10 conversion of the ICO Proceeds—a question which Plaintiff seeks to answer in seeking the requested
 11 discovery—any additional delays to the progress of this action will serve to increase the risk that
 12 Plaintiff and the Proposed Class will suffer irreparable harm and the requested relief by this litigation
 13 may become unavailable or inadequate. *See SEC v. Johnson*, 2001 U.S. Dist. LEXIS 27403, at *12-13
 14 (S.D. Fla. Dec. 27, 2001) (stating that absent injunctive relief and an accounting, “funds may be further
 15 disbursed, transferred, and/or dissipated to the degree that any permanent relief the District Court may
 16 order may be rendered meaningless”). As such, Plaintiff and the Proposed Class are threatened with
 17 undue prejudice and the PSLRA’s automatic stay on discovery should not apply. *See Vacold LLC v.*
 18 *Cerami*, 2001 U.S. Dist. LEXIS 1589, at *22-23 (S.D.N.Y. Feb. 16, 2011) (finding undue prejudice
 19 “where defendants might be shielded from liability in absence of the requested discovery”); *see also In*
 20 *re Royal Ahold N.V. Securities & ERISA Litigation*, 319 F. Supp. 2d 634, 635 (D. Md. 2004) (lifting
 21 PSLRA discovery stay where the plaintiffs “have shown that a delay in the production of the
 22 particularized discovery sought here would cause undue prejudice to their ability to litigate and, most
 23 significantly, resolve as expeditiously their claims against [the defendants]”).

24 The same result should attach here, and the Court should grant Plaintiff limited expedited
 25 discovery on the narrow issues raised herein so as to prevent undue prejudice to Plaintiff and the
 26 putative Class.

CONCLUSION

For the foregoing reasons, Plaintiff respectfully requests an order permitting the limited expedited discovery detailed in the Proposed Production Letter, Enright Dec., Ex. 1.

Respectfully submitted,

Dated: January 24, 2018
